ABOUT ME

I am an experienced core software engineer with multiple areas of interests. I've worked on and designed high-load, highly-scalable projects and big data pipelines, as well as conventional full-stack web applications.

First and foremost, I am passionate - yes, actually passionate - about making solutions that change people's lives. I see code as a tool and always try to keep the bigger picture in mind.

I'm most interested in backend positions that can challenge me, although I'm open to other fields of development. My current aim is to eventually move on to an architect/team lead position.

I care about what I do - I like to be active and change things to the best, while keeping the business's interests in mind. I also care about being ethical and mindful, and would love to contribute to open-source projects!

WORK EXPERIENCE

eBench - Node back end developer
2017 - 2018
- **RESPONSIBILITIES** - created and supported a high-load data-gathering platform backed by a message queue, as well as creating multiple custom tools for the team and web UIs for them
- **BACKEND** - Node, MongoDB, Redis
- **FRONTEND** - HTML, CSS, JavaScript, React

[Virtuum Lab](#) - Full stack web developer
2016 (4 months)

— **RESPONSIBILITIES** - supported and made new features for a web-based CRM system as part of a small team during an internship
— **BACKEND** - C#, ASP.NET MVC (Razor)
— **FRONTEND** - HTML, CSS, JavaScript, jQuery

SKILLS

— **JAVASCRIPT** - Node, TypeScript, Express, ES6 (2 years)
— **C#** - .NET, ASP.NET MVC, Core (3 years)
— **FRONT-END** - HTML5, CSS3, React (1 year)
— **CLOUD** - Google Cloud Platform (1 year)
— **DESIGN PATTERNS** - OOP, FP, TDD, DDD, SOA, web API, REST, GraphQL, microservices
— **DATABASES** - SQL, MongoDB, Redis

— **SECONDARY LANGUAGES** - Ruby, Go, Elixir, Haskell, C++, assembly
— **SYSTEM** - web hosting, nginx, Docker, Windows, Linux, LAN, Cisco

— **OTHER** - machine learning, functional programming, Android development, UX design, web design, 3D programming, 3D modelling, information security, penetration testing, photography, music production

EVENTS

— **IT-PLANETA** - C# competition, 20th place in Russia (1st place in Moscow and Moscow region) (2015)
— **WORLD SKILLS** - Russia Cisco networking competition, 3rd place (2015)
— **PROGRAMMING OLYMPIAD** - Moscow region college olympiad, 3rd place (2016)
